### **DETAILED ACTION**

Claims 1-20 are pending. No drawings were filed with the application. Foreign priority is claimed.

#### ***Information Disclosure Statement***

The examiner has considered the IDS.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-8, 15, 16-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 has an internal period at line 19. Please correct.

The claims use the transitional term ‘comprising’, which is synonymous with ‘including’, ‘containing’, or ‘characterized by’, is inclusive or open-ended and does not exclude additional unrecited elements or method steps. *Moleculon Research Corp. v. CBS, Inc.*, 793 F.2d 1261, 229 USPQ 805 (Fed. Cir. 1986); *In re Baxter*, 656 F.2d 679, 686, 210 USPQ 795, 803 (CCPA 1981); *Ex parte Davis*, 80 USPQ 448, 450 (Bd. App. 1948) (‘comprising’ leaves ‘the claim open for the inclusion of unspecified ingredients even in major amounts’). See MPEP 211.03.

Claims 15-16 employ the term ‘derivative’ which is ambiguous since derivative is referring to material “derived” from the named formula which applicants’ reagent or material are the claimed formula. Therefore, it is recommended that the terms ‘derivative’ be replaced with the term ‘compound’ to be consistent with the named formula.

Art Unit: 1625

In claims 1, 3-6, 17 the term 'molecular sieve' is indefinite. Molecular sieves may be composed of crystalline aluminosilicates, clays or feldspars. What type of sieve is applicants' using/contemplating?

Claims 2,9-14,20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
